Assembl Chronos Certificate

This Chronos certificate proves that at 2020-09-15T11:48:40Z (UTC), Sebastian Mellen was in possession of the document and files listed below. Proof of this can be obtained by calculating the SHA256 hash of the content bundle (the timestamp data in Base64), and verifying that the resulting SHA256 hash matches the SHA256 hash included in the memo of transaction 6869435A73CD170354B6BA99CEC3375CAEF7FE53AB9123E0C1510AEBDB41F028 on the Stellar blockchain. To view the transaction memo, use a blockchain explorer like https://stellar.expert and look for the "Memo (HASH):" section. All relevant data is listed below:

Description	Relevant Data
TIMESTAMP CONTENT	
TITLE	Heaven in a Molecule
DOCUMENT	I rhyme peculiar sets of phrases
	I flip like mad all through the pages
	Lines and lines I don't recall
	I see the scribbles on the wall
	Distorted time, distorted speech
	My hands reach out, yet I can't reach
	The water that sits near my bed
	My thoughts run wild
	I might be dead
	But no, I see some colors there
	Across the wall, a rainbow glare
	A mystery, what could this be?
	They had forewarned me, I suppose
	I could burst forth in lines of prose
	Or spend hours just wiggling my toes
	What kind of heaven do I see?
	I guess it's just the LSD
