

Assembl Chronos Certificate

This Chronos certificate proves that at 2020-09-16T05:34:37Z (UTC), Sebastian Mellen was in possession of the document and files listed below. Proof of this can be obtained by calculating the SHA256 hash of the content bundle (the timestamp data in Base64), and verifying that the resulting SHA256 hash matches the SHA256 hash included in the memo of transaction 75417DA9CCA1032B83548736DB6F3D936E318FCB1E761ADF52EE8E507474A464 on the Stellar blockchain. To view the transaction memo, use a blockchain explorer like <https://stellar.expert> and look for the "Memo (HASH):" section. All relevant data is listed below:

Description	Relevant Data
TIMESTAMP CONTENT	
TITLE	The Curse of Rhyme (Poem)
DOCUMENT	<p>I suppose it's a gift, to be able to rhyme</p> <p>But to be quite frank, it feels more like a vine</p> <p>That tightens its grip with every new line</p> <p>And grows stronger with the progression of time</p> <p>Even in my sleep, when I think I'm alone</p> <p>I'll have some strange vision, I'll pick up a phone</p> <p>Then behold, on the other end, someone will speak</p> <p>And upon hearing them, my knees will grow weak</p> <p>For within the speech that I hear in my head</p> <p>There's a rhyme of some sort that fills me with dread</p> <p>For I know it's a plague without an escape</p> <p>The rhymes have strangled my thoughts like a snake</p> <p>Even my dreams, where I should be in flight</p> <p>Have been suffused with this terrible blight</p> <p>The gift of the poet is the curse of rhyme</p> <p>It works its way in like poisonous slime</p> <p>So watch out, and stop reading, or you'll end up like me</p> <p>Drowned in a meaningless doggerel sea</p>
